Re: **Sanitary Transfer & Landfill, Inc., Delafield, Wisconsin**
Our File No. 6996-16

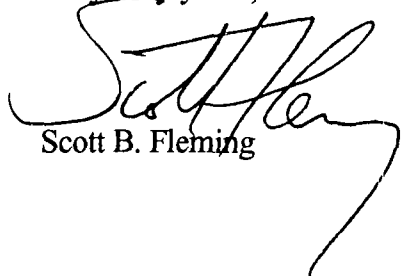

Dear Brad:

Pursuant to your letter of September 7, 1995 and my follow up letters, this is to confirm that water softeners have been installed in the residences identified and are in operation. Each of the individuals has been instructed regarding operation of the water softeners. With respect to the basement vent, John Dary has refused to let us on the premises to install it. Therefore, we are unable to implement that portion of the agreed upon program.

Please let me know if there is anything further you would like us to attempt to do. If not, it is my understanding that at least as of this time, this ends the involvement of the USEPA in this matter.

Thank you for your cooperation.

Very truly yours,

Scott B. Fleming
